Docket No. 98N-1265 2741 '99 MAY -4 P2:32

Food and Drug Administration

5600 Fishers Lane

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: Because, finally in over 30 years, all my symptoms, caused from low accurate & unbalanced, of many hormones, they are in control. I am 68 years old.

I am a patient with "Myasthenia Gravis," (Auto-immune disease) Now, in remission. I learned my hormone function was the cause of many of my symptoms, muscle weakness, depression, sleeplessness, anxiety, degenerate joints & Pain, monthly periods; 65 yrs old.

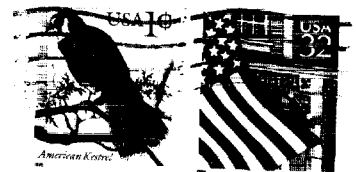

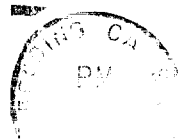

For 30 years I'd taken many commercially manufactured drugs, "One size fits all." Caused many side effects, worse than I had..

In 1991 I had a bad stroke, which the Dr's. thought I should stop (Premarin) Hormone I was taking. This caused me many problems, plus my life. I started a search for help. I learned about Madison Pharmacy Ass. "The First Women's Health Pharmacy in the nation", through my doctor. It took me 3 yrs of different test etc, to learn through them, which hormones & amounts I required. I needed real low dosages and was so un-balanced, Nao for the past year for the first time, since I was in my teens, no more symptoms, of weakness, anxiety, etc. it is now possible for me to live normally throughout every month. I've learned with a Auto-Immune disease, like I have, there are a very few synthetic drugs I can tolerate. I have to have this kind of treatment. Thank You!

Please fold, seal, and mail by June 1
